

the nj donotcall law is the best in the nation. if i want to buy something - i will call them. many people (myself included) work nights and due to various responsibilities (ie schoolage children) cannot just turn off their phones during the day. i pay my phone bill - they don't and calling the way they do is such a violation of my privacy that it is tantamount to just breaking into my house.no changes need to be made to this law - indeed, other states should tighten up their dnc laws!
